

For Lynkpay to work automatically and integrate with your dispatch system we utilise hooks and API's. We need your permission to access these.

When you generate a password for us please make sure that you keep it secure.

We will only use it automatically to engage API's. We will not use this to login to your system without your permission for any other reason.

Whilst waiting for iCabbi to provide your credentials, please generate the username below and then send this form back to us.

- 1) Create a new iCabbi user:- “thirdpartyapi_driverspay” with all Admin Permissions.
- 2) Generate a random password:- (minimum 8 characters letters and numbers):-

Please also tell us what your server address is (the one in google which takes you to the iCabbi login page):-

When this form is completed please send it back to us at onboarding@lynkpay.co.uk

Thanks for all your help. #teamLynkPay
